

CREDIT SERVICES

Instant Merge

The most widely accepted credit reporting solution

CoreLogic Credco's Instant Merge is the most widely available and accepted merged credit reporting solution in the mortgage industry. Combining credit data from one, two or all three national credit bureaus into a convenient single report in a common format, it's an ideal fit for most lending situations.

Utilizing our patented Merge Logic, Instant Merge allows you to get an accurate and balanced representation of your borrower's credit history. Only the most up-to-date tradeline information appears on the report, giving you a more complete picture of your client's credit history.

Widely Available

Available on more technology platforms than any other provider, our expansive connectivity makes it possible to access our Instant Merge credit reports from just about anywhere, easily and conveniently. Instant Merge is also available in batch format for convenient processing of multiple reports.

Proven Systems Uptime

Our proven systems uptime means you get access to the most innovative credit reporting solutions in the industry, reliably and with confidence. And combined with our world-class technical support, you can rely on trained, knowledgeable professionals to answer your questions and keep you connected for consistent and dependable data exchange.

Portability

Whether you're accessing or re-accessing credit information, Credco's wide range of connectivity portals makes data exchange smooth and efficient – wherever you do business.

For more information on Instant Merge, contact a CoreLogic Credco sales associate at (800) 255-0792 or visit us online at www.credco.com.

PRODUCT HIGHLIGHTS
